

Ladybird templates can be used for number bonds to 20 as well as doubling and halving numbers to 10.

Doubling and Halving: Draw on correct number of spots on each side of the ladybird e.g. doubling 4, draw 4 spots on each side. How many are there altogether?

Bonds to 20: If I draw 6 spots on one side of the ladybird - how many spots will I need on the other side to make 20?
