

Keeping up with the children – Fortnite

Fortnite is a game that all the children are talking about and you may be wondering whether it is suitable for your child. In Battle Royale, 100 player's battle against each other and the last one standing is the winner. The first thing to mention is this game is deemed not suitable for primary aged children and has a 12 rating due to its violent nature. You should also be aware that users are encouraged to join up with others and these may well be complete strangers. Your child will also be able to take part in or just listen to others talking as they play the game and this dialogue may not be suitable for young ears. We continue to remind children not to share personal information about themselves online such as name, address, age and school. Please could you repeat these messages at home?
