

**Reading:** Please read with and to your child as often as possible. The children should be bringing home their reading journals, we would love you to support them in completing these.

**Spelling:** Each week in school the children will be taught a new spelling pattern. We will upload activities on Spelling shed to match the pattern. Please feel free to support with these spelling patterns by looking at the 'How to support your child at home' spelling section on the website.

**Maths:** Maths homework will be set weekly. The children will bring home their maths book. The weeks will alternate between online activities on Mathletics and Make It Stick work which ensures they are able to recall the previous learning they have been taught. There are also Maths Packs on the 'How to support your child at home' maths section on the website.
