

End of Key Stage 1 (Y2) Assessments

Together, Fly High Like an Eagle

Don't Panic!!

General information about assessments

- Children will be assessed in Reading, Writing, Maths and SPAG.
- Tests must take place in May (Reading and Maths are compulsory. SPAG is optional).
- Tests are pieces of the puzzle.
- Papers will be marked by class teacher and children will receive a raw score.
- DFE will release a conversion chart in June which will then allow the raw score to be transferred into a standardised score.

Reading

- Two papers
- 1st paper will be combined reading and questions in one booklet
- 2nd paper will be separate reading and questions and is much harder than paper 1
- Papers used together with the framework
- Key things- decoding and understanding of vocabulary
- Reported as working towards expected standard, working at expected standard, working at greater depth within expected standard

Working towards the expected standard

The pupil can:

- read accurately by blending the sounds in words that contain the common graphemes for all 40+ phonemes*
- read accurately some words of two or more syllables that contain the same graphemephoneme correspondences (GPCs)*
- · read many common exception words.*

In a book closely matched to the GPCs as above, the pupil can:

- · read aloud many words quickly and accurately without overt sounding and blending
- · sound out many unfamiliar words accurately.

In a familiar book that is read to them, the pupil can:

answer questions in discussion with the teacher and make simple inferences.

Working at the expected standard

The pupil can:

- · read accurately most words of two or more syllables
- read most words containing common suffixes*
- read most common exception words.*

In age-appropriate1 books, the pupil can:

- read most words accurately without overt sounding and blending, and sufficiently fluently to allow them to focus on their understanding rather than on decoding individual words²
- · sound out most unfamiliar words accurately, without undue hesitation.

In a book that they can already read fluently, the pupil can:

- · check it makes sense to them, correcting any inaccurate reading
- · answer questions and make some inferences
- explain what has happened so far in what they have read.

Writing

- SPAG paper 1- multiple choice questions OPITIONAL
- Spelling paper 20 contextualised words OPTIONAL
- Writing Teacher Assessed based on the framework provided.
- Key things- HANDWRITING AND SPELLING OF RED words.
- Reported as working towards expected standard, working at expected standard, working at greater depth within expected standard.

Working towards the expected standard

The pupil can, after discussion with the teacher:

- · write sentences that are sequenced to form a short narrative (real or fictional)
- · demarcate some sentences with capital letters and full stops
- segment spoken words into phonemes and represent these by graphemes, spelling some words correctly and making phonically-plausible attempts at others
- · spell some common exception words*
- . form lower-case letters in the correct direction, starting and finishing in the right place
- form lower-case letters of the correct size relative to one another in some of their writing
- use spacing between words.

Working at the expected standard

The pupil can, after discussion with the teacher:

- write simple, coherent narratives about personal experiences and those of others (real
 or fictional)
- · write about real events, recording these simply and clearly
- demarcate most sentences in their writing with capital letters and full stops, and use question marks correctly when required
- · use present and past tense mostly correctly and consistently
- use co-ordination (e.g. or / and / but) and some subordination (e.g. when / if / that / because) to join clauses
- segment spoken words into phonemes and represent these by graphemes, spelling many of these words correctly and making phonically-plausible attempts at others
- · spell many common exception words*
- form capital letters and digits of the correct size, orientation and relationship to one another and to lower-case letters
- · use spacing between words that reflects the size of the letters.

Working at greater depth

The pupil can, after discussion with the teacher:

- write effectively and coherently for different purposes, drawing on their reading to inform the vocabulary and grammar of their writing
- · make simple additions, revisions and proof-reading corrections to their own writing

Maths

- Paper 1- Arithmetic e.g. 15 x 4 =
- Paper 2- Reasoning e.g. contextualised questions
- Time limits (although they do not have to be timed!)
- Children can have people reading the questions
- Reported as working towards expected standard, working at expected standard, working at greater depth within expected standard.

Working towards the expected standard

The pupil can:

- · read and write numbers in numerals up to 100
- partition a two-digit number into tens and ones to demonstrate an understanding of place value, though they may use structured resources¹ to support them
- add and subtract two-digit numbers and ones, and two-digit numbers and tens, where no regrouping is required, explaining their method verbally, in pictures or using apparatus (e.g. 23 + 5; 46 + 20; 16 - 5; 88 - 30)
- recall at least four of the six² number bonds for 10 and reason about associated facts (e.g. 6 + 4 = 10, therefore 4 + 6 = 10 and 10 - 6 = 4)
- . count in twos, fives and tens from 0 and use this to solve problems
- · know the value of different coins
- name some common 2-D and 3-D shapes from a group of shapes or from pictures of the shapes and describe some of their properties (e.g. triangles, rectangles, squares, circles, cuboids, cubes, pyramids and spheres).

Working at the expected standard

The pupil can:

- · read scales* in divisions of ones, twos, fives and tens
- partition any two-digit number into different combinations of tens and ones, explaining their thinking verbally, in pictures or using apparatus
- add and subtract any 2 two-digit numbers using an efficient strategy, explaining their method verbally, in pictures or using apparatus (e.g. 48 + 35; 72 – 17)
- recall all number bonds to and within 10 and use these to reason with and calculate bonds to and within 20, recognising other associated additive relationships
 (e.g. If 7 + 3 = 10, then 17 + 3 = 20; if 7 3 = 4, then 17 3 = 14; leading to if 14 + 3 = 17, then 3 + 14 = 17, 17 14 = 3 and 17 3 = 14)
- recall multiplication and division facts for 2, 5 and 10 and use them to solve simple problems, demonstrating an understanding of commutativity as necessary
- identify \(\frac{1}{4}, \frac{1}{2}, \frac{1}{2}, \frac{2}{4}, \frac{3}{4}, \) of a number or shape, and know that all parts must be equal parts of the whole
- · use different coins to make the same amount
- · read the time on a clock to the nearest 15 minutes
- name and describe properties of 2-D and 3-D shapes, including number of sides, vertices, edges, faces and lines of symmetry.

Pre Key stage

 If a child is working below the objectives of the key stage they can be assessed as 'pre key stage foundations'

Towards IS A standard

Pre Key stage	Towards the	Working at expected standard	Greater Depth
foundat	expected		of expected
ions	standard		standard
S1- S4			

Organisation

- Papers will take place in the classroom and group rooms- children will be split into small groups dependant on needs. Done by the class teacher
- Reporting results- DFE/LA will be told if the child is Working Towards, Working At, Working with Greater Depth

Any Questions?
