'Future generations will have to live in a world that is so unstable that it will be very difficult for them to have any predictability about their life whatsoever'

- UN Climate Chief Christiana Figueres, speaking in 2019

WE ARE IN THE MIDST OF A CLIMATE & ECOLOGICAL BREAKDOWN

We are facing an uncertain future - our world is in crisis and life itself is under threat. Now is not the time to ignore the issues; now is the time to act as if the truth is real.

The science is clear. We are in the midst of a mass extinction of our own making and our governments are not doing enough to protect their citizens, our resources, our biodiversity, our planet, and our future.

This crisis knows no borders, race or ethnicity, and while wealth may offer some protection, it is all but temporary. The clock is ticking, and if we don't succeed in uniting to protect our planet, everyone will be impacted - you, your family, everyone and everything you hold dear...

...AND YET EVERY CRISIS CONTAINS THE POSSIBILITY OF TRANSFORMATION

THIS EVENT WILL FEATURE SPEAKERS & REPRESENTATIVES FROM THE FOLLOWING GROUPS:

ASSOCIATION OF CLINICAL PSYCHOLOGISTS CLIMATE ACTION NETWORK acpuk.org.uk
PARENTS FOR FUTURE parentsforfuture.org.uk
GREENPEACE greenpeace.org.uk | **BRISTOL YOUTH STRIKE 4 CLIMATE** bristolys4c.org

GREENPEACE

Come and learn more about the crisis and its impact on the physical and mental well-being of our children. Find out what part you can play in shaping our future - and theirs - for the better.

The evening will conclude with a short, facilitated brainstorming session in which everyone is invited to share ideas on local issues of concern and get creative! All thoughts welcome. You will leave this evening well informed about the positive impact YOU can have as we work together towards a liveable planet for our children.
